

Covid-19 Sanitation Services

Quick, Reliable, Professional Sanitizing and Decontaminating Services of Virus-Infected Sites and Materials

As the outbreak of the Coronavirus (COVID-19) unfolds, the need for sanitation and decontamination services have heightened more than ever! The quickly spreading, infectious virus put us in a very serious situation. Aside from the spread of the virus through human contact, bacteria, germs, and viruses live on surfaces and objects for several weeks. Refraining from close contact with infected people and practicing social distancing is not enough. It is also vital to keep our daily environments sanitized and safe. When it comes to sanitizing and decontaminating, Plateau Pest Solutions is fully trained and equipped to help!

Indeed, the Outbreak of Coronavirus (Covid-19) is rapidly evolving. As one of the leaders of emergency response to hazardous and infectious events, Plateau Pest is highly committed to the health and safety of both our employees and our customers.
